BE A JANGSA MEMBER

Jangsa Animal Saving Trust was established by Lama Kunzang Dorjee Rinpoche in 2000 after a personal experience of 'auspicious coincidence' when five bulls appeared to seek refuge from the slaughterhouse at his main seat monastery of Jangsa Dechen Choling. This incident of saving of the five bulls heralded the inception of Jangsa blessed by the spiritual patronage of Their Holiness Kyabje Chadral Rinpoche and the 70th Je Khenpo – Trulku Jigme Choeda Rinpoche.

Jangsa is now a registered NGO engaged in the spiritual practice of Tsethar- 'saving of animal lives', and actively involved in all fields of animal welfare – rescuing injured and sick animals, providing medical intervention and care, and maintaining animals in shelters, sanctuaries and pasturelands in Bhutan and India.

The higher purpose of Jangsa is to create the environs of active 'Compassion in Action' in the kingdom through the method of universal love for animals to ultimately inculcate the realization of Bodhicitta in all sentient beings.

By the truth of interdependence and the power of aspirations and dedications, Jangsa's activities are seeds that enhance the collective karma of our world and links all beings to activities of great merits. A key function of Jangsa is to collectively engage our younger generation, communities, private and public organizations, religious and government institutions in the ethos of 'Compassion in Action' and *Bodhicitta*.

Over the years, Jangsa has saved and maintained thousands of animals – large and small, housed in 12 sanctuaries run by about 19 caretakers in the kingdom besides sanctuaries in India. Jangsa animal shelter in Serbithang, Thimphu alone has rescued more than 10,000 animals, mostly sick dogs, according to our records.

Jangsa routinely engages with all our partners in all areas to uplift the plight of animals and enhance our collective karma, wherever possible. A successful intervention, a case in point, was our humble request duly granted by to His Majesty the King for the institution of Anti-Cruelty and Animal Welfare Legislations in our Dharma Kingdom.

Your membership is key to the sustainability of our operations. As our public profile has grown exponentially over the years, increasing numbers of animals have been entrusted to our intervention, care and maintenance. These are expensive operations to run. Your membership can also enable Jangsa to fulfill our objective to expand our operations in the areas of awareness campaigns and collaborative partnerships with the public at large.
